

Chief Ward Rep Annual Report

05/02/09

This year has gone by quickly. I went to the annual meeting in Winnipeg last year and found it very motivating. Sometimes it is hard to believe that there is other nurses out there with the same problems.

I still have been orientating several new members a month . This happens at least twice a month . I hope that I can motivate these new members to come out to the meetings .

I have attended the union management meetings, with many discussions on many different subjects.

Spent a lot of time at the end of the year passing out new contracts and calendars to the wards. I hope all the membership received their copies

I hope to continue to inform and represent all members in the future

In Solidarity
